EDUCATION

- **Keshav Memorial Institute of Technology** Hyderabad, India
• *Bachelor of Technology - Computer Science and Engineering; CGPA: 8.5* 2021 - 2025
• *Relevant Coursework* : Data Structures and Algorithms using Java and Python, Object Oriented Programming(Python and Java), Artificial Intelligence and Machine Learning, Software Engineering, Database Management Systems, and Project Management

SKILLS

- **Languages** : **Proficient**: Python, Java **Familiar**: JavaScript, C++ **Learning**: L^AT_EX, C Sharp
- **Frameworks** : Flask, TensorFlow, PyTorch, JavaFX, LangChain, LangGraph
- **Tools** : Kubernetes, Docker, Git/GitHub, Amazon Web Services
- **Databases and Gaming Engines** : MySQL, Unity
- **Libraries** : Pandas, NumPy, Matplotlib, OpenCV, Scikit Learn
- **Soft Skills** : Leadership, Teamwork, Communication, Flexibility

EXPERIENCE

- **Basal Analytics (Basal AI)** October 2025 - November 2025
• *Data Scientist Intern*
 - **Development**: Developed a real-time NLP summarisation pipeline using transformer models, achieving **75% accuracy**.
 - **Project Coordination**: Collaborated closely with cross-functional teams (DevOps, Data, QA) to align requirements.
 - **Deployment**: Deployed on Azure App Service, optimising flow and sustaining **65% accuracy** under real-time load.
 - **Testing**: Conducted performance testing across **8–10 live news channels**, boosting processing task rates by 40%.
- **TechInvest Software Solutions** May 2024 - July 2024
• *Data Analyst and Software Testing Intern*
 - **Analysis**: Applied **Data mining & Regression Analysis** methods on 10k+ daily-use products with 75% accuracy.
 - **Testing**: Executed **Integration and GUI testing with Citrus and Squash**, ensuring website's reliability of 90%.
 - **Accuracy**: Implemented performance testing using **WebLOAD and Apache JMeter**, boosting task rates by 30%.

PROJECTS

- **Jobmate AI – A Job Application Enhancer Hub** October 2024
Python, HuggingFace, Llama 3.1, Gemini Vision Pro, GPT, Flask
 - **Connexus**: Deployed a cold mail generator using Llama 3.1 and flask with an **accuracy of 60%** .
 - **CVSync**: Developed an application that generates the ATS score with an **efficiency of 65%** using Gemini Vision Pro.
 - **ProctorEase**: Developed an AI-based proctoring system that detects suspicious behaviour of users with **72% accuracy**.
- **DocSense RAG Assistant - A MCP Powered RAG QA Bot** November 2024
Python, Groq LLM, FAISS Vector Store, FastMCP, VSCode
 - **Extraction**: Indexed **6+ document formats with 75%** clean-text extraction accuracy using FastMCP.
 - **Retrieval**: Boosted **semantic search performance by 65%** using spaCy embeddings + FAISS for chunk retrieval.
 - **LLM Integration**: Delivered responses by integrating **Groq LLMs** with conversational memory for contextual querying.
- **Garuda Drone Setup – An Integrated Drone Application** September 2023 - February 2024
Drone Technology, Python, JavaScript, Raspberry Pi
 - **Efficiency**: Collaborated in a 6-member team, resulting in an **overall application accuracy of 85%**.
 - **Hardware**: Configured video conferencing using Tenda routers and Tp-Link antennas with **95% accuracy**.
 - **Interface**: Implemented real-time flight indicators using jQuery and WebSockets, improving **data transmission by 40%**.
- **VidConnect – A Web Real-Time Communication Application** September 2023
WebRTC, Web Sockets, HTML, CSS, JavaScript
 - **Precision**: Worked in a six-member team to design an application, achieving an impressive **accuracy rate of 90%**.
 - **Technical Stack**: Utilized JavaScript (Node.js& React.js) for robust signaling in video calls resulting in **85% accuracy**.
 - **Interface**: Ensured latency **less than 10%** and HD streaming, transmitting updates via IP addresses or HTTPS.

COURSES AND CERTIFICATIONS

- Python for **Machine Learning and Data Science** by Udemy
- Python for **Data Science** by NPTEL
- **Data Structures and Algorithms** using Java by NPTEL
- **Generative AI** with Large Language Models by AWS, DeepLearning.ai and Coursera
- **Project Management 101 — PM101** : Project Management Basics by Udemy

ACHIEVEMENTS

- **Acknowledgement Certificate** for qualifying and participating in Amazon Machine Learning Summer School'24.
- Awarded **Silver Badge** in NPTEL Certification for the course Data Structures and Algorithms using Java.
- Shortlisted in the top 10 teams at the **Open Group Enterprise Architecture Hackathon**.
- Achieved Standard Milestone at **Google Cloud Arcade Facilitator'24**.
- Achieved **31st place** out of over 1,000 participants in the AUDEVDAY Hackathon.
- Shortlisted for **McKinsey & Company's prestigious Forward Learners Program** for emerging professionals..
