SOFTWARE DEVELOPER

waghelaakshi@outlook.com

My expertise covers entire software development lifecycle, including requirements analysis, coding, debugging, and performance optimization. I am skilled at using modern C++ standards (C++11/14/17), STL, and different libraries in developing efficient and maintainable code.

PROFESSIONAL SUMMARY

JAN 2023 – MAR 2026 (3 YEARS 2 MONTHS)

STARLITE INFOTECH LIMITED, BENGALURU, INDIA

- Participated in learning and implementation of oops concepts for project requirements.
- Developed software to correct defects in existing products.
- Built the Customer Relationship Management (CRM) application for multiple clients using C/C++, STL, SQL, and Data Structures.
- Designed and developed C++ code for the Siebel CRM team.
- Proficient in C/C++ programming, debugging, and problem-solving.
- Ability to quickly learn new technologies and tools and work in a highly collaborative team-oriented environment.

MAJOR PROJECT

JAN 2023 – MAR 2026 (3.2 YEARS)

SIEBEL CRM

- Role: Development
- Team Size: 7
- Environment: C++, Linux, Git, Jira.
- Description: Developed a high-performance Customer Relationship Management (CRM) application for clients in high-tech industries using modern C++, STL, and DSA. Designed and optimized multithreaded components and implemented advanced design patterns for modular and reusable software. Worked extensively in a Linux environment, utilizing debugging with GDB and performance tuning using Valgrind.

C & C++

- Storage classes, string handling, arrays, functions, structures, data structure, function pointer, dynamic memory allocation.
- Core OOP building blocks: abstraction, inheritance, polymorphism, Encapsulation.
- Standard Template Libraries (STL), Templates, virtual function.
- Exception handling: Avoiding, Handling, and Blocking exceptions.

KEY SKILLS

- **CORE SKILLS:** Strong Programming skills in C++, Intermediate skills in C, Windows, Linux, SQL, Pointers, Function Pointers, DMA structures, Linked List, Preprocessor, Storage class specifiers, Object- oriented programming, Abstraction, Inheritance, Polymorphism, Encapsulation, Templates, Exception Handling, C++11, C++14, C++17, Data Structures and Algorithms, Multithreading, MFC, QT QML ,Shell scripting, Smart pointers, Design pattern, Standard Template libraries (STL), HTML, CSS.
- **SOFT SKILLS:** Efficient analytical, problem-solving, decision-making skills. Able to solve complex problems, team player, and provide working solutions.

TOOLS USED

- Git, GitHub, Visual Studio v22, NetBeans, Code blocks, Linux, g++std=C++11, GDB, Code Coverage, Valgrind, Edit Plus, JIRA, SVN/Putty, ClearCase, Bug Tracker, Trace View, Simics, TortoiseSVN, ProcMon, Win32.

EDUCATION

2022-2023

MASTER OF BUSINESS ADM | DEVI AHILYA UNIVERSITY

Sanghvi institute of management and science, Indore, MP

2019– 2021

BACHELOR OF SCIENCE | VIKRAM UNIVERSITY

Arts and science college, Ratlam, MP

2018

HSC | BOARD OF SECONDARY EDUCATION, MP

NAHAR CONVENT H.SEC. School Ratlam, MP

2016

SSC | CENTRAL BOARD OF SECONDARY EDUCATION

SAMTA INTERNATIONAL School Ratlam, MP

PERSONAL DETAILS

- Name : Akshita waghela
- Father's name : jagdish ji waghela
- Date of Birth : Dec 16, 2000
- Current location : Bengaluru
- Marital status : Single
- Languages known : Hindi, English
- Nationality : Indian

I do hereby declare that the above information is true to the best of my knowledge

Akshita waghela

Place: Bengaluru
