Professional Summary

15+ years' experience in software development, specializing in C and C++ on Linux and Windows platforms. Strong background in analytics, device drivers, and cloud/big data adaptation. Proven leadership managing technical teams and overseeing end-to-end project delivery.

Key Skills

- **C, C++ 98/11/14**, QT, Win32 UI, **STL**
- **IDE** : Visual Studio 2017, WDK, Windows 7, Windows 10, Linux
- **Database** : SQLite, SQL, Impala - Bigdata
- **Software Development Methods** : Agile - Scrum / Kanban Model, SAFE, water fall
- **Software Development Tools** : Jira, Git / Github, SVN, Jenkins, Docker

Professional Experience

Technical Lead, Hexagon Capability Centre India Pvt Ltd

Apr 2023 – Feb 2025

Led digital twin replica creation of CMM tools.

Principal Engineer, HARMAN

Feb 2015 – Mar 2023

Tech Manager for analytics domain, Telecom domain using C, C++.

Assistant Consultant, Infogain India Private Limited

Dec 2013 – Feb 2015

Delivered multiple enterprise solutions in C & C++.

Technical Leader, Aricent Group

Dec 2012 – Nov 2013

Led LTE project using C & C++.

Senior Software Engineer, EXFO Nethawk

Jan 2011 – Dec 2012

Group lead for mobile network simulation.

Intermediate Software Engineer, Lexmark International India Pvt Ltd

Mar 2007 – Dec 2010

Developed Windows printer device drivers with WDK.

Education

B.Tech/B.E. (Computers), Nagarjuna University, 2004

Grade: 73%

Projects

- **Converters** (12 Months): *Tech Lead Role : C++ 14 - Autocad Libs - VS2017 IDE :*

Conversion of CAD (DXF, LandXML, SHP) files to Hexagon data format using C++ & GDAL, AutoDesk libraries. This helps as a common lib across Hexagon Autocad projects to convert data formats.

- **Digital Twin** (9 Months): *Tech Lead Role : C++ 14 -OpenGL - VS2017 IDE :*

Developed digital twin replicas of CMM machines for virtual setup and simulation using TypeScript, C++ backend, ReactJS frontend. This simulator helps customers prepare the workshop setup with quick turnaround time.

- **PCC (16 Months): Tech Manger Role : C++ 14 - CentOS- Oracle 8 OS :**

Ported PCC software from CentOS 6 to Oracle Linux 8 for Poly & Microsoft Lync interoperability; included open source rebuilding.

This helps to remove the dependency from CentOS as it reaches End Of Life support.

- **NxShop (30 Months):** *Tech Lead Role : C++ 11 - Axis Cameras Embedded OS :*

Architected store analytics application with Axis Smart cameras; ported Axis Camera EAPModule to Arm64.

This Project helps to identify the number of visitors entering a shop / zone where Axis cameras are installed for analytics..

- **Nielsen Analytics (38 Months):** *Tech Lead Role : C++ 98 - Linux -Impala - Bigdata :*

Migrated aggregator apps / Modules from Oracle SQL to Impala for cloud/big data use, using Docker.

These changes in SP Aggregator & Trend Alignment Aggregators produce aggregated output data in Impala Bigdata and consumed by other modules to produce retail Insights.

- **UI for Windows Printer Driver (24 Months):** *Individual Contributor : C++ 98 - Windows 7 - WDK :*

Developed 'Godiva' UI framework for XPS printer drivers on Windows Vista/7, using XML and Win32 APIs. These XPS drivers are part of the Inbox driver program which uses Godiva UI - xml configurable based UI which reduces development cost.
