SOFTWARE DEVELOPER

Enthusiastic Developer specializing in C/C++ ,Python and low-level programming, with growing knowledge of Computer Graphics, OpenGL, GLSL, WebGL, DirectX11 and 3D rendering pipelines. Experienced in writing efficient code and optimizing performance in real-time systems. Actively learning shaders and 3D modelling. Looking for an opportunity to apply and expand expertise in graphics rendering technologies.

TECHNICAL SKILLS

Graphics & Rendering : OpenGL, GLSL, WebGL, OpenGL-ES, Direct3D11, 3D Math, Rendering Pipeline, Shaders (Vertex, Fragment) ,Textures, Framebuffers, Lighting, 3D Modelling Tools,Real-time Rendering

Programming Languages : C/C++, Python

Developer Tools: Git, Github, Visual Studio, Blender, Audacity, Linux, Windows

Database Management: SQL, MySql

Other: Data Structures Algorithms, SDLC, API Development

EXPERIENCE

LiteCode Software Pvt Ltd

June 2022 – June 2023

Software Developer

Pune

- Developed and maintained banking policy modules aligned with business requirements.
- Implemented features as per specification documents and ensured timely delivery.
- Performed unit testing and collaborated with the team to maintain application quality.

Automation Teknix

July 2023 – Oct 2024

Software Developer

Pune

- Built vision system applications and reporting tools using Python and C++.
- Optimized codebases, improving system efficiency and reducing issue resolution time by 15%.
- Developed and tested drivers for hardware communication, gaining experience in low-level programming and system integration.

PROJECTS

- Developed demo applications on Windows and Linux using native windowing and modern OpenGL.
- Created applications with the OpenGL programmable pipeline, implementing primitives, textures, lighting, and render-to-texture concepts using C/C++ and 3D math transformations. youtu.be/VYuME3hPMX4
- Built and maintained C++ applications, applying Object-Oriented Programming (OOP) principles to ensure modular and reusable code.
- Designed and implemented shaders (vertex and fragment) to simulate realistic lighting and rendering effects.
- Developed android application using OpenGL-ES as combination of concepts, including 2D and 3D shapes, framebuffers , textures, lights and framebuffer object. youtu.be/h21kwXRASCQ
- Designed and implemented multiple shaders to simulate realistic lighting in 3D environments.

EDUCATION

Savitribai Phule Pune University

Pune

Bachelor of Engineering in Mechanical

Aug. 2018 – June 2022

M.E.S Boys High School College

Pune

Higher secondary school

Aug. 2016 – Feb 2018

Vishwakarma Vidyalaya Bibwewadi

Pune

Secondary school

June. 2015 – Mar 2016

CERTIFICATES

Core Python Certification (Marvellous Infosystem Institute)

C, C++ and Python Programming Certification (Marvellous Infosystem Institute)

Fundamental of Computers Seminar (Astromedicomp)
