PROFESSIONAL SUMMARY

C++ Developer with **3.2 years of experience** in building **HMI and GUI applications** for automotive infotainment systems. Skilled in **C, C++, Qt, XML**, and strong in **OOP, STL, multi-threading**, debugging, and performance optimization. Experienced in developing UI screens, enhancing modules, fixing bugs, and improving overall system performance. Hands-on with **GTest/GMock**, real-time systems, and Agile workflows.

WORK EXPERIENCE

Software Engineering Intern – Mobility Skill Development Program

People Tech Group, Hyderabad

Nov 2022 – Apr 2023

- Trained in C++, Android, Java, and Python with emphasis on mobility solutions
- Worked on hands-on assignments and guided projects to strengthen core programming skills
- Exposed to industry-standard workflows and Agile practices
- Showed strong learning attitude, problem-solving skills, and technical curiosity

Associate Software Engineer

People Tech Group, Hyderabad

May 2023 – 12 Dec 2025

- Developed **HMI screens** and components using Qt, C++, and XML.
 - Contributed to **Front & Rear Command Console (FRCC)** features including seat controls, HVAC, and virtual controls.
 - Performed **enhancements, debugging, and optimizations** across modules.
 - Strong experience in troubleshooting and resolving software issues.
 - Worked with **multi-threading, OOP, STL**, ensuring smooth UI logic and interactions.
 - Used **GTest/GMock** for unit test development and validation.
 - Participated in **real-time system testing**, ensuring feature integrity before integration.
 - Supported **post-release maintenance** and continuous improvements.
-

PROJECTS

Front & Rear Command Console (FRCC)

Client: General Motors (GM)

- Developed intuitive **HMI components** improving in-vehicle user experience.
- Integrated systems such as **seat status, HVAC, virtual controls**, and UI workflows.
- Improved screen responsiveness and optimized module performance.
- Debugged issues, conducted **code reviews**, validated test cases, and handled change requests.
- Ensured full compliance with **functional and non-functional requirements**.

CERTIFICATIONS

Certificate of Completion in C & Data Structures – Frontlines EduTech Private Limited

KEY SKILLS

Programming: C, C++, Qt

Core Concepts: OOPS, STL, Multi- threading, Data Structures

HMI Development: Automotive Infotainment, GUI Design, Qt Layouts

Tools & Platforms: Vector cast, Linux, Visual Studio, Qt Creator

Version Control: Git, Bitbucket

Testing & Debugging: GDB, GTest, GMock, Issue Resolution, Optimization

Collaboration: Requirement Analysis, Client Communication, Agile Development

EDUCATION

Bachelor of Technology – Computer Science & Engineering

Acharya Nagarjuna University, Guntur

June 2019 – July 2022

Diploma in Computer Engineering (DCME)

M.B.T.S. Government Polytechnic, Nallapadu, Guntur

July 2016 – June 2019
