

KADASI KARTHIK

(B.Tech CSE (AI & ML) | Aspiring Machine Learning Engineer)

☎ +91 8790330099 ✉ kadasikarthik2003@gmail.com 📍 Nallakunta, Hyderabad, 500044 [in www.linkedin.com/in/kadasikarthik](https://www.linkedin.com/in/kadasikarthik)

CAREER OBJECTIVE

Motivated B.Tech student specializing in Artificial Intelligence and Machine Learning, seeking an internship opportunity to apply my knowledge of Python, data analysis, and machine learning algorithms in solving real-world problems while gaining practical industry experience.

EDUCATION

Holy Mary Institute Of Technology - (2019 - 2022)
Diploma in (Electronics and Communication Engineering)

Aurora's Technological & Research Institute - (2023-2026)
B.Tech in Computer Science and Engineering (Artificial Intelligence & Machine Learning)

INTERNSHIPS

NATIONAL SMALL INDUSTRIES CORPORATION LTD- (2021 - 2022)

AI Image Annotation Intern | TOA Digital Solutions

- Annotated and labeled image datasets to support AI model training and improvement.
- Tagged objects, scenes, and categories to create accurate training data.
- Contributed to model development by providing high-quality annotated datasets.

Data Analytics Job Simulation | Deloitte (Forage)

- Completed practical tasks in data analysis and forensic technology through Deloitte's job simulation program.
- Gained hands-on experience in analyzing datasets and deriving insights for business decision-making.

TECHNICAL SKILLS

- MS Office Suite (Excel, Word, PowerPoint)
- Machine learning using Python
- Prompt Engineering for ChatGPT
- ChatGPT Advanced Data Analysis

KEY SKILLS

- Communication & Email Etiquette
- Time Management & Prioritization
- Team Collaboration & Adaptability
- Professionalism & Integrity
- Interpersonal & Listening Skills

KEY PROJECTS

Image Captioning using Generative AI

- Developed an image captioning system using deep learning and transformer-based models to generate descriptive captions from images.
- Applied computer vision and NLP techniques to map visual features with natural language.
- Utilized pre-trained models (e.g., BLIP) from Hugging Face for improved caption accuracy and contextual understanding.
- Deployed an interactive interface using Gradio for real-time image-to-text generation

Network Security Defense using Game Theory (CNADT Model)

- Designed a Complex Network Attack and Defence Time (CNADT) model using the FlipIt game theory approach for optimal defense timing.
- Modeled cyberattack propagation using the SIR framework to simulate real-time attack–defense interactions.
- Evaluated performance across small-world and scale-free networks to enhance adaptive defense strategies.
- Demonstrated improved network resilience through dynamic timing-based security decisions.

CERTIFICATIONS

Deloitte Data Analytics Job Simulation – Deloitte (Forage), Mar 2026

Completed real-world tasks in data analysis and forensic technology

Diploma Industrial Training – Electronics & Microcontroller

NSIC Technical Services Centre, Hyderabad | Aug 2021 – Feb 2022

- Gained hands-on experience in PCB designing, circuit simulation, and microcontroller programming
- Worked on electronics hardware and embedded system fundamentals

Experiential Learning Certification (Personal & Professional Development), IAO – 2022
