To be an efficacious and quick-learning graduate seeking an entry-level software position to apply technical skills in a collaborative environment, which enables me to fully utilize my skills, while making a significant and prominent contribution to the success of the organization.

PROJECTS

Title: Community Inquiry – Social Network Based Q&A Platform

- Developed a secure, interest-based Q&A system leveraging Java, JSP, MySQL, HTML, CSS, JavaScript.
- Tools/Technologies: Java, JSP, MySQL, HTML, CSS, JavaScript, JFree Chart

Title: Tracking Health Trends on Social Media Over Time

- Developed TM–ATAM and T–ATAM models to detect and predict health-related topic transitions on Twitter across time and regions.

Tools/Technologies: Java, HTML, CSS, MS SQL

Title: Detecting Web Attacks with End-to-End Deep Learning

- Developed a Python-based deep learning model using Autoencoder and LSTM to detect and prevent web based cyberattacks.

Tools & Technologies: Python, TensorFlow, Keras, Scikit-learn, Pandas, Matplotlib, Django.

EDUCATION

Aurora's Technological and Research Institute (ATRI)

B. Tech (CSE) - 7.3

December 2021- July 2025

Narayana Junior College

Intermediate (M.P.C) – 8.8

June 2019- March 2021

St. Xavier's High School

S.S.C – 9.3

June 2018- March 2019

SKILLS

Programming Languages : Java, Python, JavaScript

Web Development : HTML5, CSS3, React.js, Node.js

Databases : MySQL, MongoDB

Productivity Tools : MS Office, Google sheets, slides, Digital Editors, Power BI

TRAINING & INTERNSHIP

Full Stack Java Development – Training Program

TEKS Academy | Aug 2025 – Jan 2026

- Trained in Core Java and OOP concepts

Industrial Practical Experience (IPE) Training

INFOZIT SOLUTIONS | 1 Month

- Exposure to SDLC and Java application testing

Full Stack Developer Intern

INFOZIT SOLUTIONS | 3 Months

- Worked on Full Stack Java applications
- Assisted in module development and database tasks.

CERTIFICATE

- Completed Developer and Technology in (ACCENTURE): Task in SDLC, STLC, Code debugging.
- Completed Software Engineering in (JP MORGAN): Practical task in Reset API (Integration, controller).
- Completed Software Engineering Job Simulation (ELECTRONIC ARTS): Hands-on experience in feature design and bug fixing.
