SUMMARY

Motivated B.Tech student specializing in Artificial Intelligence and Machine Learning, seeking an internship opportunity to apply my knowledge of Python, data analysis, and machine learning algorithms in solving real-world problems while gaining practical industry experience.

EDUCATION

Aurora's Technological & Research Institute - (2023-2026)

B.Tech in Computer Science and Engineering (Artificial Intelligence & Machine Learning)

TELANGANA SOCIAL WELFARE RESIDENTIAL JUNIOR COLLEGE – (2020 -2022)
(MPC / Mathematics, Physics, and Chemistry)

TELANGANA SOCIAL WELFARE RESIDENTIAL SCHOOL – (2020)

INTERSHIPS

AI Image Annotation Intern | TOA Digital Solutions

- Annotated and labeled image datasets to support AI model training and improvement.
- Tagged objects, scenes, and categories to create accurate training data.
- Contributed to model development by providing high-quality annotated datasets.

Data Analytics Job Simulation | Deloitte (Forage)

- Completed practical tasks in data analysis and forensic technology through Deloitte's job simulation program.
- Gained hands-on experience in analyzing datasets and deriving insights for business decision-making.

TECHNICAL SKILLS

- MS Office Suite (Excel, Word, PowerPoint)
- Machine learning using Python
- Prompt Engineering for ChatGPT
- ChatGPT Advanced Data Analysis

KEY SKILLS

- Communication & Email Etiquette
- Time Management & Prioritization
- Team Collaboration & Adaptability
- Professionalism & Integrity
- Interpersonal & Listening Skills

KEY PROJECTS

Cloud Messaging Application

- Built a scalable cloud-based messaging app enabling real-time, cross-platform communication.
- Implemented authentication, push notifications, media sharing, and synchronized chat.
- Leveraged cloud and real-time services for secure and reliable message delivery.

A Proactive Cyber Risk Assessment Model using Markov Chains & Bayesian Networks

- Developed a proactive, time-sensitive cyber risk assessment model for evolving cyber threats
- Applied Markov Chains to analyze attack progression and state transitions
- Used Bayesian Networks to model system vulnerabilities and asset dependencies
- Enabled dynamic, data-driven risk prediction for improved security decision-making

CERTIFICATIONS

Prompt Engineering Specialization – Vanderbilt University (Coursera), Oct 2025

- Developed skills in prompt design, LLM interaction, and generative AI applications

ChatGPT Advanced Data Analysis – Vanderbilt University (Coursera), Oct 2025

- Applied AI tools for data analysis, automation, and insight generation

Deloitte Data Analytics Job Simulation – Deloitte (Forage), Mar 2026

- Completed real-world tasks in data analysis and forensic technology

PERSONAL DETAILS

DOB: 18-10-2004
