Skilled HMI Engineer with **3.5+ years of experience** in automotive application development using **C++, Qt, and QML**. Strong in building real-time dashboards, infotainment systems, and instrument clusters with a focus on performance, usability and Agile delivery.

Experience

Verolt Technologies

Engineer

Bangalore, IN

Aug 2022 – Present

- **Developed live measurement dashboards, instrument clusters, and infotainment systems** using **C++** and **QML**, integrating **real-time data capture** to create **intuitive user interfaces**.
- Worked on **Maps integration**, adding **map layers** for both **on-road** and **off-road vehicles**, and **optimizing UI for different screen sizes**.
- **Designed responsive front-end UIs in QML**, creating **reusable components** to streamline development and reduce **code redundancy**.
- Utilized **C++** to manage seamless **data flow**, ensuring accurate and **real-time data display** and **reporting**.
- Contributed to all stages of the **SDLC**, from **requirement gathering** to **deployment**, and participated in **agile development processes**, including **design discussions**, **planning**, and **retrospectives**.
- **Provided Qt/QML training and mentorship**, enhancing team capabilities and improving development efficiency.
- Applied **dynamic styling**, **responsive layouts**, and **color schemes** for a cohesive and polished **UI design**.
- Led **performance optimization efforts**, implementing **pixel-perfect designs** and **code improvements** to enhance overall **user experience**.

Verolt Technologies

Intern

Pune, IN

March 2022 – July 2022

Developed some features including **weather** and **sign up/login**, contributing to the overall functionality and user experience and participated in training sessions.

Skills

Core Skills : Cpp, Qt Core, Qml, Agile

Familiar With : Yocto, Cmake, Design Patterns, Linux

Tools/Utilities : GitHub, GitLab, Eclipse, VSCode, Jenkins, JIRA, Figma, Zeplin

Personal Projects

Instrument Cluster Dashboard

Developed the **Instrument Cluster** for an electric car, implementing essential features such as **speedometer**, **navigation**, and **weather**, using **C++** and **QML**.

Education

Symbiosis University of Applied Sciences

B.Tech. Computer Science & Information Technology (Grade: 8 CGPA)

St. Jones Convent School

Intermediate (Grade: 75%)

Indore, IN

2018 – 2022

Khandwa, IN

2016 - 2018
