

Reshma Dubba

Software Engineer

Address : Hyderabad

Phone 8978671281

E-mail : reshmadubba2798@gmail.com

Profile Summary:

Accomplished Software Engineer with 4.7 Years of experience in Automotive industry with General Motors and DRDO as the clients, specializing in GUI development and optimization using C++, QT and QML. Expert in enhancing user experience through innovative widget customization and performance testing. Demonstrates strong problem-solving abilities and effective collaboration with cross-functional teams. Proficient in HMIC design and versed in using GIT for version control.

Skills

- **Programming & Development:** C++.
- **Tools & Frameworks:** Visual Studio, Git, CMake, QMake, JSON, Beyond Compare, Notepad plus, Altia Renderer, HMIC Designer, ODI Tool, QT Creator.
- **OS & Platforms:** Linux, Windows, QNX.
- **Version Control & Collaboration:** Git, SourceTree, Jira, Confluence.
- **Other Expertise Areas:** Debugging, Diagnostic Tools, Log Analysis, Defect Management, Client Communication.

Roles and Responsibilities

- Requirement Analysis and design a software solution based on client requirement.
- Design and development of multiple cluster features for ICE and BEV vehicles.
- Did Internal Validation also for my Developed gauges in both Windows and Hardware.
- Understanding the standard reports and real time data views
- Performed root cause analysis for various defects.
- Suggested Solutions for some of critical defects.
- Sending daily status reports on enhancements unit testing and bug fixing.
- Involved in meeting with functional team to understand the functional specification.
- Identifying areas for modification in existing programs and subsequently developing these modifications.

Work History

2024-03 -
Current

Software Engineer

Electro Pneumatics and Hydraulics, Pune, India

Design and Develop GUI Applications:

- Created a user interface using Qt framework, focusing on designing and implementing screens with interactive elements such as keypads, buttons, and other widgets.
- Utilized Qt Widgets, QObject, signal and slot and QML to build and manage custom controls, layouts, and visual elements.

Style and Theme Application:

- Applied Qt style sheets to customize the look and feel of the application.
- Ensured visual consistency by creating and implementing reusable style components for buttons, input fields, labels, and other interactive components.

Widget Management and Customization:

- Developed custom widgets where required, enhancing user interactions and improving functionality.
- Integrated a third-party widget and created new ones to meet specific application needs, especially when adding interactive features like virtual keypads.

2021-07 -
2024-03

Junior Software Engineer

People Tech Group Inc, Hyderabad, India

- Worked here in Project involved development of HMI for In-vehicle Infotainment Cluster System. HMI was developed from scratch as per requirements provided by client (General Motors). Project was composed of several modules like Gauges, Info pages, telltales, etc.
- Performed in-depth root cause analysis and resolved critical defects related to rendering, data handling, animation, and service communication.
- Proposed improvements in gauge design, logic flow, and performance optimization to enhance HMI responsiveness.
- Documented design changes, prepared daily progress reports, and supported code reviews and requirement discussions.
- Analyzed standard reports, and diagnostic data streams for validating mapping and gauge correctness.
- Able to adapt to new technologies quickly

Code Development and Optimization:

- Used C++ and QT built-in classes and libraries to create efficient, reusable, and maintainable code.
- Written modular code to enable easy maintenance and feature expansion.

Performance Testing and Troubleshooting:

- Conducted thorough testing of each UI component and screen to ensure performance and responsiveness.
- Debug and troubleshoot issues related to the GUI and its underlying logic, ensuring a smooth user experience.

Documentation and Collaboration:

- Documented code, workflows, and procedures for future reference and knowledge.

Education

2016-08 -
2019-05

Bachelor of Science: ECE

Dr.K.V. Subba Reddy College of Engineering for Women - Kurnool, India
