

CAREER OBJECTIVE

To apply my expertise in embedded software development to create innovative and efficient solutions for cutting-edge technology.

EXPERTIES

- Extensive background in developing reliable and efficient software for Embedded products using C / C++ & Embedded C, Linux Internals.
- Skilled in software designing and delivering robust cross-platform solutions with Qt Creator IDE Tool.
- Expertise in OOPS, Multi-threading, Socket programming, Exception-Handling & Collections.
- Proficient in Qt framework development, specializing in QML / Widgets based User Interface (UI) and business logic.
- Good exposure to C++11 features like Shared Ptr, Smart Ptr, lambda functions, etc.
- Familiar in understanding ARM Architecture & focusing on software integration, debugging, and performance optimization.
- Strong knowledge on communication protocols like SPI, UART, I2C, and TCP/IP.
- Competent in using SQLite for reliable data management, ensuring data integrity.
- Good exposure to all phases of the Software Development Life Cycle (SDLC), developing projects from concept to full implementation
- Expert in requirement analysis, design, development, testing, and integration of software modules.
- Quick at learning new technologies and working efficiently with teams to drive successful project outcomes.

PROFESSIONAL EXPERIENCE

I am about 3 years of experience From Gusto Software Solutions Pvt Ltd from Nov 2021 – Jan 2025
Rangsons aerospace Pvt Ltd 1 year from Jan 2025 – Jan 2026.

TECHNICAL SKILLS

C, C++, C++14, Embedded C	QT Creator & KEIL	Linux (Ubuntu)
QT Multimedia	UART, SPI, TCP/IP, I2C	ARM Cortex - A

PROJECT

Project 1 : ArmBasedHorizontdataIntegrationSystem.

Role: Developer Platform: Qt Creator, C++, Linux, SQLite, TCP/IP Description: Developed an advanced platform to automate production data management, replacing manual systems. Features a streamlined interface that boosts efficiency, prioritizes safety, and ensures data authenticity. Responsibilities:

1. Formulated technical specification from project requirement.
2. Developed UI adhering to designed and usability standards in QML.
3. Enhanced performance by optimizing C++ code data handling.
4. Crafted and optimized SQL queries for effective data management.
5. Partnered with team members to achieve project goals seamlessly.

Project 2: Touch Sensitivity Based Seamless Flow Enhancer Ultra-Efficient Product.

Role: Embedded Developer

Platform: Qt Creator, C++, Linux (Ubuntu)

Description:

Designed an automated fluid management system to improve precision and operational efficiency. Features a user-friendly interface for reliable performance.

Responsibilities:

1. Defined technical requirement and system designs.
2. Designed a user-friendly Qt framework interface for seamless operation.
3. Developed high-performance C++ modules for product operational control.
4. Reviewed and optimized the code for reliability & reusability.
5. Refined the system by incorporating feedback and implementing updates with the team.

Project 3: CIU

- Developed core validation logic to verify incoming CIU signals against expected behavior
- Designed and implemented Qt-based UI modules for real-time monitoring and error display
- Handled UART communication for receiving and processing signals from hardware
- Implemented multithreading and synchronization for continuous real-time signal validation MIL-STD-1553
- Built logging and error-handling mechanisms for traceability and debugging
- Performed hardware-software integration and ensured accurate system behavior
- Debugged and resolved timing and synchronization issues during testing
- Collaborated in design discussions and module-level development

EDUCATION

Bachelor of Engineering – Dr .Babasaheb Ambedkar
Technological University March 2019 – June 2022 CGPA: 9.1
Diploma – Maharashtra State Board of Technical Education.
April 2016 – May 2019 Percentage- 71%

PERSONAL INFORMATION

- Gender: Male.
- DOB: 28-10-2000.
- Marital Status: Single.
- Language Known: English, Hindi, Marathi.

DECLARATION

il hereby declare that all the information mentioned above is true to the best of my knowledge.
