

CHINNAREDDY GARI KETHAN REDDY

+91 8919951641 ◇ Bengaluru , India

kethanreddy2001@outlook.com

PROFILE

Python developer with strong foundations in Python, OOP, data structures, and SQL, with hands-on experience building projects using Django, Flask (familiarity), and API integrations. Skilled in problem-solving, backend logic building, and developing clean, modular code. Adept at collaborating with teams, using Git, and contributing to full development cycles. Highly motivated to learn, grow, and work on real-world Python applications. .

EDUCATION

Mtech in software engineering, VIT University
CGPA - 7.2.

2019 - 2024

SKILLS

Technical Skills	Python , Django , SQL, OOPS, DBMS , Data Structures
Databases	PostgreSQL, MongoDB, Redis, Mysql
Libraries & tools	NumPy, Pandas, SQL Alchemy , Postman , Git

PROJECTS

Enhanced Security of ATMs Through Facial Recognition .

Python — Computer Vision — Facial Recognition

- Built a secure facial recognition-based authentication system for ATM transactions using Python
- Implemented face detection and verification pipelines to replace PINbased authentication.
- Enhanced transaction security by reducing unauthorized access and potential fraud.
- Designed backend workflows to ensure reliable and real-time identity verification.

Plant Disease Detection Using Convolutional Neural Networks (CNN) . Python — Deep Learning — Image Processing — HTML — CSS

- Developed a CNN-based deep learning model to detect and classify plant diseases from crop images.
- Performed image preprocessing, feature extraction, and model training for accurate predictions.
- Integrated the trained model with a Python backend for realtime disease classification.
- Designed a simple and responsive web interface to display prediction results clearly

CERTIFICATIONS

- Microsoft Certified: Azure AI Fundamentals
- NASSCOM – Fundamentals of Data Analytics

ORGANIZATIONS

- Core Committee Member — Sahiti Club
- VIT Events Management Coordinator — Rotaract Club, VIT
