📍 Hyderabad

PROFILE SUMMARY

Accomplished Data Scientist with a passion for delivering valuable data through analytical functions and data retrieval methods. Committed to helping companies advance by helping them to develop strategic plans based on predictive modeling and findings. Bringing forth a proven track record of analyzing complex data sets and serving as a strong advisor.

EDUCATION

INTERMEDIATE
SRI CHAITHANYA JUNIOR
COLLEGE. 81%

- maths,physics,chemistry

2021- 2025
MALLAREDDY COLLEGE OF
ENGINEERING.

- Bachelor of computer science(data science)
- GPA: 6.44 / 10

SKILLS

- python
- html &css
- sql
- java
- numpy
- pandas
- microsoft excel

LANGUAGES

- ENGLISH: Fluent
- HINDI: Fluent
- GERMAN: Basics
- TELUGU: Fluent

WORK EXPERIENCE

COURSES

DATA SCIENCE BOOTCAMP(udemy)
DATA SCIENCE USING PYTHON(coursera) on going

PERSONAL PROJECTS

Data science fresher

Project on Detecting of pills using CNN

- pills detection is essential task in the Healthcare industry
- pills identification is done manually by pharmacists or through databases that describe the pills characteristics such as shape,colour,and imprints on the pill.
- As the no of pills/medicine increases traditional methods become inefficient
- to address this computer vision technique particularly. **CNN (convolutional neural network)** have been used to automate pill detection providing faster and more accurate solution
- CNN is used for detecting patterns like edges, shapes, and objects.

Project on Detecting of Twitter spam comments using CNN

- With rapid growth of social media platforms huge amount of data is generated every second
- However this massive flow of data also brings challenges
- Existing systems such as blacklisting , keyword matching,predefined patterns,content based and some data minig techniques are used but they fail .
- Machine learning technique like NLP (natural language processing is have proven effective in dectecting spam by analysing textual patterns

- still modern methods for detecting spam comments fail some time by considering non spam content as spam

Achievements

- Completed a 7 day python fullstack development
 - participated in coding / tech fests
-
