CAREER OBJECTIVE

To be able to work for an encouraging and stable company that will assist me in developing, improving, and obtaining the necessary skills in order to become the best engineer possible. I am looking forward to challenging my potential and be worthy of Management trust and confidence.

ACADEMIC QUALIFICATION

- BE, ECE- Narayana Engineering college, Gudur
Year of Completion: 2024 CGPA - 9.3
- Senior Secondary (XII, Sri Chaitanya Junior College)
Year of Completion: 2020 CGPA - 9.2
- Secondary (X, Z.P.H.School)
Year of Completion: 2020 CGPA - 9.0

TECHNICAL SKILLS AND ABILITIES

- Programming Languages: C Programming
- Microcontrollers: Arduino, STM32, ESP328P
- Communication Protocols - I2C, UART, SPI, ADC.
- Software tools – Vim, Cscope, Electric fence, GDB.
- IDE, Compiler, Debugger, Cube IDE
- Problem Solving skills.
- Good Presentation and Communication skills

INTERNSHIP

Worked as a Embedded system trainee at Amrita Embedded systems Pvt.Ltd, Hyderabad.

2025

- Learned Embedded C programming and microcontroller fundamentals.
- Worked on GPIO, timers, UART, SPI, I2C.
- Implemented mini-projects like LED control, sensor interfacing.
- Hands-on practice with debugging and hardware interfacing.

SKILLS Used

- C programming, Tools are Cscope, Vim.
- Microcontroller programming (e.g., code vision AVR)
- Debugging and Continuous testing techniques.
- Collaboration and teamwork.

PROJECTS

- **Worked on project called “Smart industrial system for monitoring, control and security system using IOT” as my Major project.** [08/02/2024 – 26/06/2024]
- Designed and developed a smart IoT-based system to enhance industrial monitoring, automate controls, and strengthen security. Real-time monitoring of industrial parameters (smoke sensor, flame, boiler overflow, Pir sensor). Automated control of equipment based on sensor data. Security alert system integrated with IoT devices.
 - **Hardware:** Microcontrollers (Atmega328p), IoT sensors (PIR sensors).
 - **Software:** IoT platforms (Thing Speak), Embedded C.
 - **Networking:** Wi-Fi module (ESP8266) for data transmission.
 - Designed the system architecture and integrated hardware components.

ACADEMIC ACHIVEMENTS

- Participated in project expos at Narayana Engineering College and NBKRIST; received over 80% positive feedback.
- Secured 1st place in Essay Writing at college level Completed Value-Added Courses and NPTEL certification (MOE, Govt. of India).
- Represented college in Throwball and Kabaddi competitions, demonstrating team spirit, leadership, and physical endurance.

PERSONAL PROFILE

- DOB: 22/06/2003
- Address: Sr.nagar, Hyderabad, Telangana.
