

SUSHMA VEMPATI

I am a highly motivated Artificial Intelligence and Data Science student with expertise in Python, Machine Learning, and Software Development. Proficient in data analysis, deep learning, and cloud computing with hands-on experience in building predictive models and scalable applications. Passionate about solving real-world problems through technology and eager to contribute to a dynamic tech organization.

EDUCATION

B. Tech in Artificial Intelligence & Data Science Methodist College of Engineering Technology

10/2021 - 08/2024

7.6

Diploma in Computer Science & Engineering Teegala Krishna Reddy Engineering College

06/2018 - 05/2021

7.5

SECONDARY SCHOOL Vedic Vidyalayam High School

06/2017 - 05/2018

8.2

PROJECTS

SENTIMENT ANALYSIS ON TWITTER DATA

- Designed and implemented a machine learning model to classify tweets as positive, negative, or neutral using natural language processing (NLP) techniques. Leveraged tools and libraries such as Python, Scikit-learn, NLTK, and Pandas, incorporating methods like data cleaning, feature extraction, and trained classifiers including Logistic Regression and Naive Bayes for effective sentiment classification.

HOUSE PRICE PREDICTION USING PYTHON

- Developed a predictive model to estimate house prices using regression algorithms like Linear Regression, Random Forest, and XGBoost. Preprocessed data by handling missing values, feature scaling, and encoding categorical variables. Evaluated model performance using RMSE and R^2 score, optimizing accuracy. Utilized Python libraries such as Pandas, Scikit-learn, and Matplotlib for data analysis, model training, and visualization.

SPAM EMAIL DETECTOR SYSTEM

- Developed an end-to-end machine learning model to automatically classify emails as spam or not spam using natural language processing (NLP) techniques and supervised learning algorithms. The project involved preprocessing raw email text, extracting key features through training models such as Naive Bayes and Logistic Regression to accurately detect spam content based on word patterns and frequency.

WORK EXPERIENCE

SALESFORCE DEVELOPER VIRTUAL INTERNSHIP

Smartbridge(AICTE)

05/2023 - 07/2023

The internship opportunity is delivered by smartbridge through their career of platform smartinternz in partnership with All India Council for Technical Education(AICTE)

IBM DATA ANALYTICS INTERNSHIP IBM (skillsbuild)

07/2023 - 09/2023

Analyzed large datasets to extract insights, identify trends, and support data-driven decision-making. Performed data cleaning, preprocessing, and visualization using Python, Pandas, and Matplotlib. Applied statistical analysis and machine learning techniques to uncover patterns and correlations.

SKILLS

PYTHON

DSA

MACHINE LEARNING

SQL

DBMS

ARTIFICIAL INTELLIGENCE

MS-EXCEL

MS-WORD

STATISTICS

HTML

CSS

GIT

TABLEAU

CERTIFICATES

Salesforce Virtual Developer Internship (05/2023 - 07/2023)

Python Programming from Cisco

Introduction to Cyber Security from Cisco

C programming from Cisco

LANGUAGES

English

Full Professional Proficiency

Hindi

Full Professional Proficiency

Telugu

Full Professional Proficiency

INTERESTS

Badminton

Listening To Music

Reading Story Books

Learning new technologies

Selected for ELTP
Committed to 2 years
